## Building Capacities for Transport Authorities to Enhance a Universally Accessible Public Transport Network

**BUDGET**  
AUD 239,000

**ACTIVITY OWNER**  
TDSI

**OTHER AGENCIES INVOLVED**  
Department of Transportation (MOT)

**OUTPUTS**  
Improved ability of transport agencies to better plan and implement accessible transport infrastructure.

The activity aims to introduce the concept of universal design, change attitudes, and assist local transport agencies to plan and design for accessible transport infrastructure. Through training, and also through technical and financial assistance, it will help transport agencies and professionals to better understand Vietnamese laws and regulations and new technologies that assist with accessibility for everyone. It will also support local officials and civil society to practically implement these new standards in public transport projects across Vietnam.

## Providing life-changing opportunities through accessible transport

STRATEGIC INTENT

Improve knowledge, change attitudes, and encourage collaboration between transport agencies and civil society in regard to accessible transport.

Build capacity that assists transport agencies to effectively implement transport accessibility laws and regulations, and recommend improvements to ensure application of best practices.

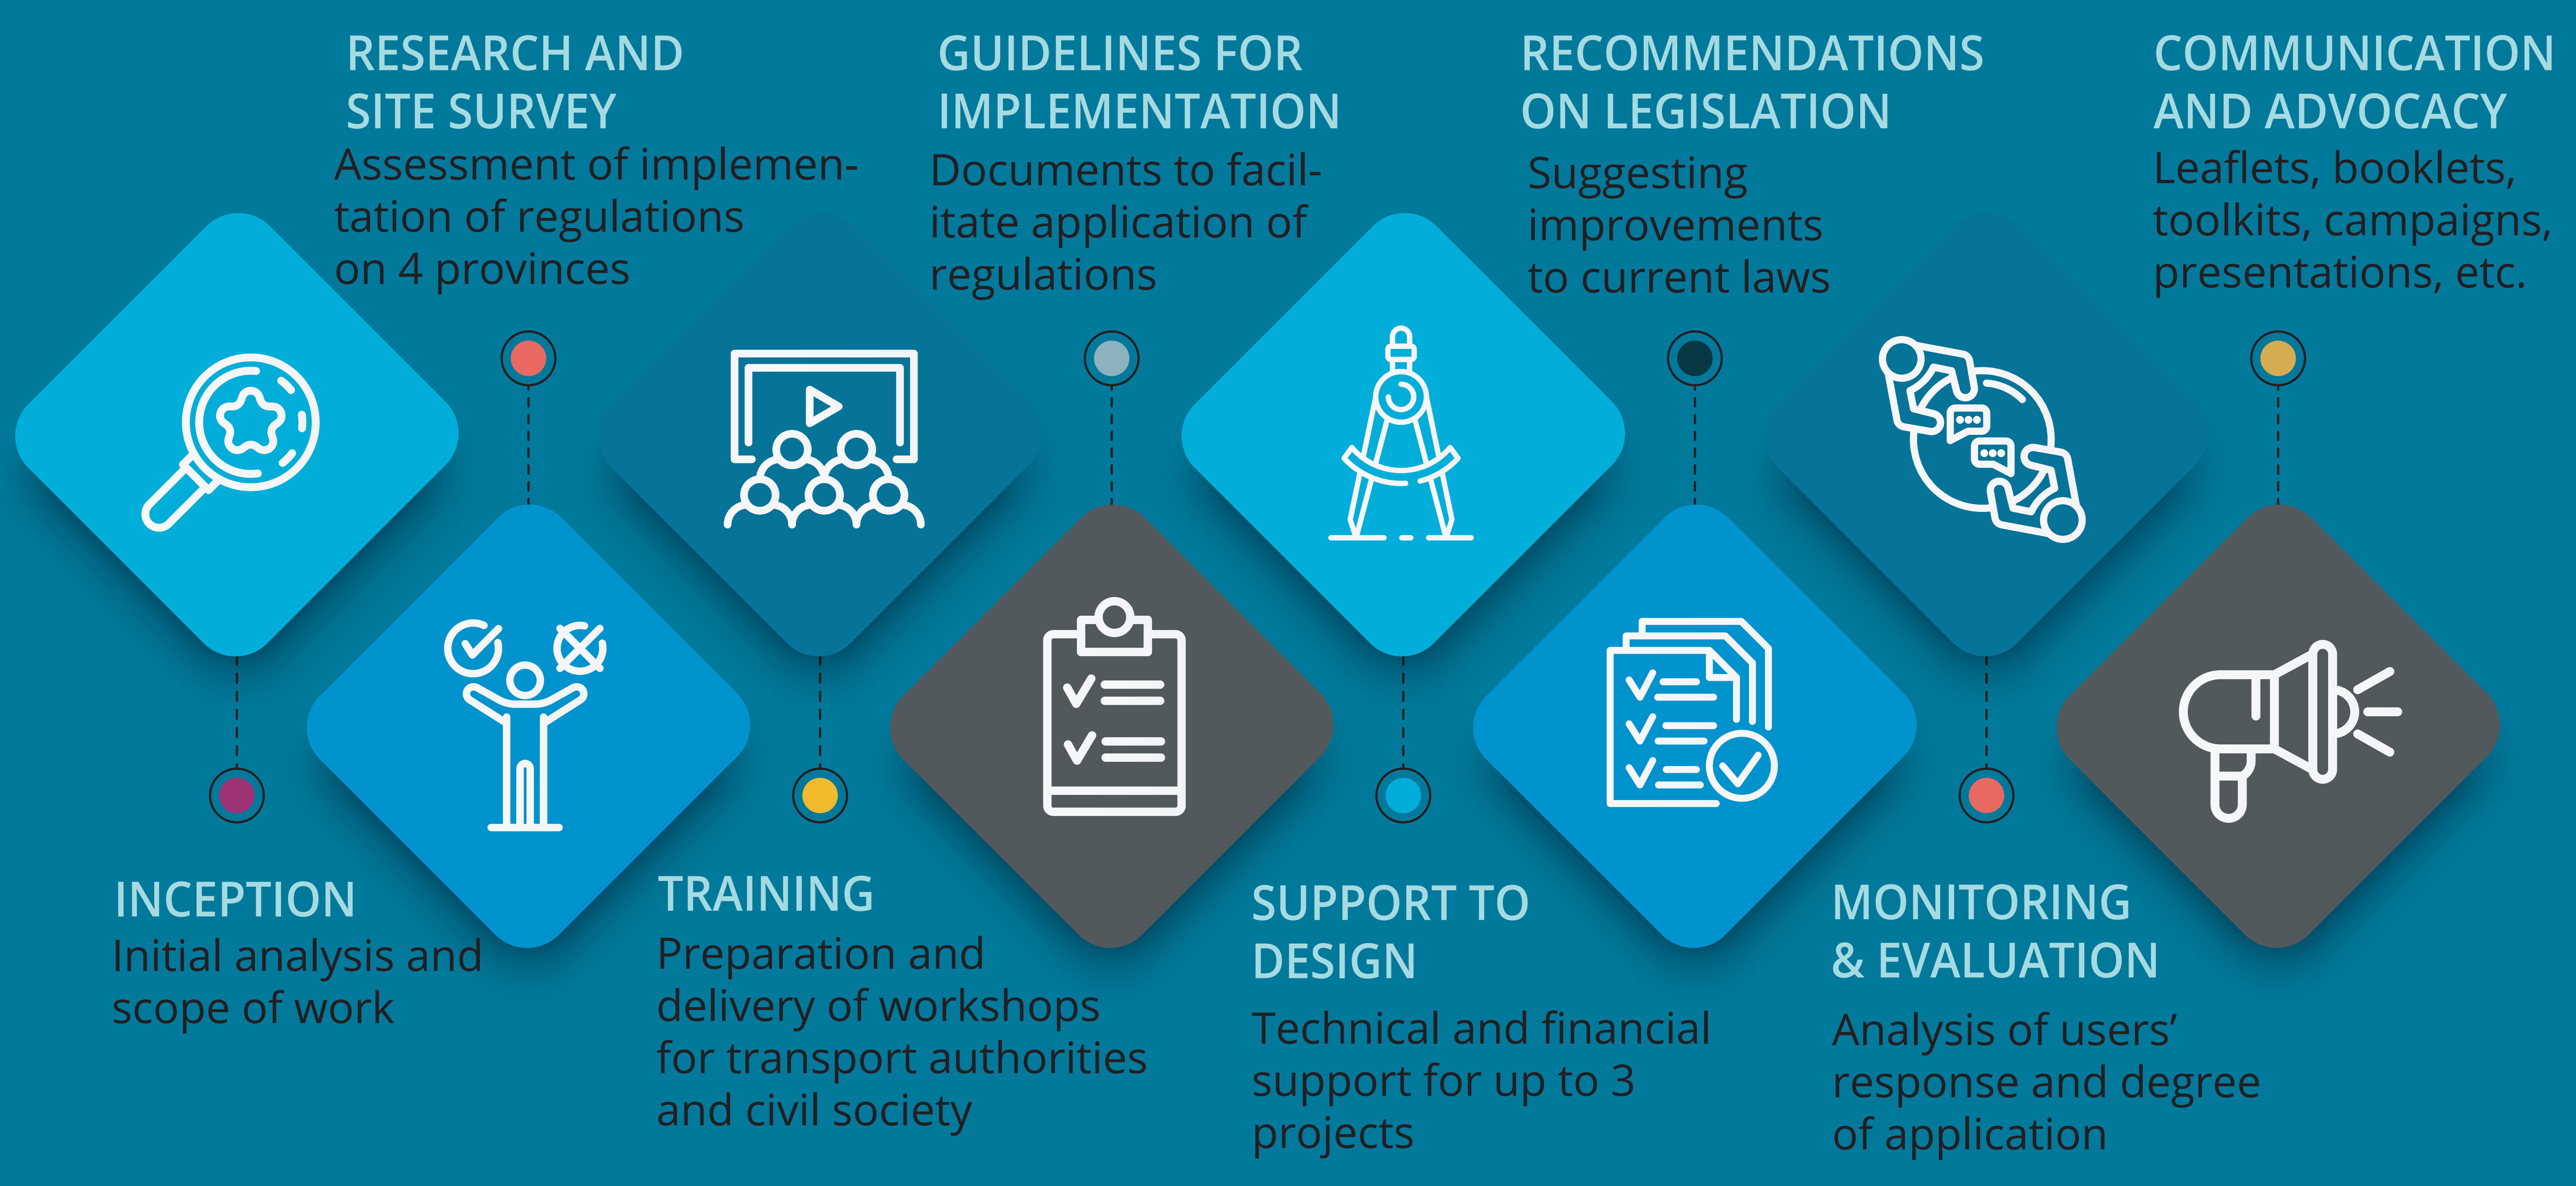

Add to the efforts of the Vietnamese Government to create opportunities in education, employment, health care or housing, bringing multiple social benefits to Vietnam.

Support sustainable growth of Vietnam's transport infrastructure sector, contributing to economic development and poverty alleviation.

PROCESS AND TIMELINE

**RESEARCH AND SITE SURVEY**  
Assessment of implementation of regulations on 4 provinces

**GUIDELINES FOR IMPLEMENTATION**  
Documents to facilitate application of regulations

**RECOMMENDATIONS ON LEGISLATION**  
Suggesting improvements to current laws

**COMMUNICATION AND ADVOCACY**  
Leaflets, booklets, toolkits, campaigns, presentations, etc.

**INCEPTION**  
Initial analysis and scope of work

**TRAINING**  
Preparation and delivery of workshops for transport authorities and civil society

**SUPPORT TO DESIGN**  
Technical and financial support for up to 3 projects

**MONITORING & EVALUATION**  
Analysis of users' response and degree of application
